DETAILED ACTION

Claims 1 and 6-8 are pending in the case.

Any rejection of record in the previous action not addressed in this office action is withdrawn.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1 and 6-8 are rejected under 35 U.S.C. 102(a) as being anticipated by Gower et al. (J. Neuroimmunol. 125 (March 2002) 103-113).

Gower et al. disclose a method for purifying an immunosuppressant protein (HISP) comprising obtaining supernatant from hNT cells, exposing the supernatant to preparative polyacrylamide gel electrophoresis, placing the active isoelectric fraction on a Blue Sepharose column, and collecting the free fraction containing the concentrated HISP. The reference discloses additional steps of ultrafiltration and Sephacryl fractionation, and combining groups of five fractions and determining peak active fraction (see page 106, 2.10-2.11).

This rejection is maintained for the reasons of record made in the previous Office action, mailed 3/29/07.

Applicant's arguments filed 8/29/06 have been considered but have not been found convincing.

Applicants have argued that they invented the subject matter of the instant application before the cited article was published, and submit an affidavit under 37 USC 1.131 in support. The affidavit filed on 8/29/06 under 37 CFR 1.131 has been considered but is ineffective to overcome the reference.

The evidence submitted is insufficient to establish a reduction to practice of the invention in this country or a NAFTA or WTO member country prior to the effective date of the reference.

The affidavit states that the invention was reduced to practice prior to the date of the publication. However, no evidence has been submitted to show said reduction to practice. Therefore, the rejection is maintained.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1636

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
